Telecommunications	6	183.8
Total	**488**	**62,182.3**

The Inventory of Major Projects in Saskatchewan is produced by the Ministry of the Economy to provide marketing information for Saskatchewan companies from the design and construction phase of the project through the operation and maintenance phases. This inventory lists major projects in Saskatchewan, valued at $2 million or greater, that are in planning, design, or construction phases. While every effort has been made to obtain the most recent information, it should be noted that projects are constantly being re-evaluated by industry. Although the inventory attempts to be as comprehensive as possible, some information may not be available at the time of printing, or not published due to reasons of confidentiality. This inventory does not break down projects expenditures by any given year. The value of a project is the total of expenditures expected over *all* phases of project construction, which may span several years. The values of projects listed in the inventory are *estimated* values only. **Project Phases: Phase 1 - Proposed; Phase 2 - Planning and Design; Phase 3 - Tender and Construction**

Company	Project	Location	$ Millions	Year	Year	Phase	Remarks
